 wenzel@wnw-ip.com

Oliver is a German and European Patent Attorney with particular focus on technical IP rights. With his vast expertise in both contentious matters and IP prosecution Oliver is a highly appreciated and often recommended expert.

VITA

Oliver studied mechanical engineering, with particular focus on automotive engineering and product development, at the Technical University of Munich (TUM), graduating in 2005. Oliver has worked in the field of industrial property rights since 2005. He is a qualified German and European patent attorney.

In 2019, Oliver was appointed as member of the Examination Commission for German Patent Attorneys by the Federal Ministry of Justice.

Before founding Wenzel Nemetzade Warthmüller Patentanwälte Part mbB, Oliver worked for several years with leading patent prosecution and litigation law firms in the field of industrial property rights. He had earlier worked with one of the world's leading manufacturers of plant and machinery used in the production and processing of synthetics and rubber, where he was responsible for all intellectual property rights matters relating to reaction technology.

He has extensive experience in the field of contentious litigation relating to patent and utility model infringements. He advises and represents clients on all aspects of technical IP rights, including application proceedings, oppositions, appeals and nullity actions. An important aspect of his work is the preparation of expert opinions on infringement issues as well as freedom to operate reports.

Oliver is a member of the German Chamber of Patent Attorneys (PAK), the Institute of Professional Representatives before the European Patent Office

(epi) and the International Federation of Intellectual Property Attorneys (FICPI).

TECHNICAL EXPERTISE

Oliver is very well positioned in general mechanical engineering. He possesses extensive knowledge in the fields of automobile and aviation technology, mechanical process engineering, outdoor and transportation products as well as sports equipment.
